Using only simple geometric shapes (circles, squares, rectangles & triangles) create an interesting composition with a focal point. Use a ruler & circle templates!!

SB #10: PVC Pipes: DUE Friday, Feb. 10

Choose 2-3PVC pipe joint connectors and arrange them in an interesting composition. Draw the PVC pipe composition. Use drawing pencils to add shading-pay close attention to **value changes**. Shading should include the "5 Elements of Shading".

SB #11: New & Old: DUE Wednesday, Feb. 22

Find 2 objects to draw something new and something old or vintage (they do not have to be the same type of object).

SB #12: Grid Journal: DUE Friday, Mar. 3

Read [MilliAnde's What is Grid Journaling](http://www.milliande.com/what-is-grid-journaling.html) article (www.milliande.com/what-is-grid-journaling.html), watch her video, and view her examples. Choose a building with unique architecture to explore (best to be physically present, but if you cannot then find several reference pictures to work from). In NONE of the grids will you draw the whole structure, you will focus on smaller sections. Following her instructions draw your first box and one detail from the architecture. Next choose another detail to draw, make sure to draw the box to fit the detail. **All the boxes should be different sizes**. Continue to draw until you have between **7-10 boxes** on one page.
