Styrofoam Printmaking

1. Get a sheet of Styrofoam.

****Prints will be mirror image, so designs and words must be **backwards!****

PRINT

TIЯP

****Everything that is pressed down with the pencil will be **WHITE**. All **RAISED** surfaces will have ink.**

2. Use a **pencil** to draw a picture onto the Styrofoam. Make sure lines are deep & thick.

3. Roll out a **thin** layer of paint over the Styrofoam.

4. Write your **name & grade** in the bottom **RIGHT** hand **CORNER** of a piece of paper.

5. Carefully lay a piece of paper **on top** of your inked design.

6. Use your fingertips to firmly rub in circles over the whole design.

7. Lift a small portion of the paper to check your design.

8. Take your paper off of the Styrofoam and give to volunteer to dry.

9. Come back in about 15 minutes to get your print & Styrofoam.

Marble Rolling Painting

1. **Write your name & grade** in the bottom RIGHT-hand CORNER of a piece of paper.
2. Place the paper in the yellow tray.
3. Use the spoons to pick up the marbles covered in different colors of paint.
4. Place the marbles on the paper.
5. Gently tilt the sides of the box so the marbles roll all over the paper.
6. Give your paper to a volunteer to dry.
7. Come back in about 15 minutes to get your paper.

Straw & Pipe Sculpture (PreK-Kindergarten)

1. Get a BASE. Write your NAME & GRADE on the bottom.
2. Pipe cleaners can be bent in any direction. They can be curled, looped, and twisted.
3. Add straws and beads to the pipe cleaners as desired.
4. Press at least one side of the pipe cleaner into the foam. Both can be pressed in to hold the sculpture more firmly.
5. Take your sculpture with you when you are finished.

Straw & Pipe Sculpture (PreK-Kindergarten)

1. Get a BASE. Write your NAME & GRADE on the bottom.
2. Pipe cleaners can be bent in any direction. They can be curled, looped, and twisted.
3. Add straws and beads to the pipe cleaners as desired.
4. Press at least one side of the pipe cleaner into the foam. Both can be pressed in to hold the sculpture more firmly.
5. Take your sculpture with you when you are finished.

Straw & Pipe Sculpture

(1st Grade + Up)

1. Holding a pipe cleaner, slip a straw so it fits over the pipe with a little of the straw sticking out on both sides.
2. Pipe cleaners can be bent to do in any direction. Bend pipes or add straws to create sculptures.
3. Twist pipe cleaners together to add length to the sculptures.
4. Loops or other formed shapes can be added for decoration.
5. Take your sculpture with you when you are finished.

Tempera Collaborative Paintings

2. Use the “tempera cakes” to color in **each shape a different color or pattern.**
3. Tempera cakes work like watercolors.
 - a. Wet the paint brush.
 - b. Swirl the brush on top of the tempera cake to load the brush with color.
 - c. Then paint on the paper.
4. These will be displayed in the administration building. Please contact art teacher if you would like to have a specific piece when they are finished.

Lego Printing

1. Choose a colored sheet of construction paper.
2. Write your NAME & GRADE on the bottom.
3. Think of something real or fantasy to create.
4. Use the LEGOS to print the shapes.
5. Gently press the LEGO on the ink filled sponge to “load” it.
6. Press the LEGO on your paper. Re-load each time you print the LEGO
7. Let dry (should dry pretty quickly-about 5 minutes).
8. Color design with colored pencils.
9. Take your drawing with you when you are finished.
